

Comparing distributions plots of some decay angles from Kirill's simulated data files with my data files after applying the cuts for Spin0m

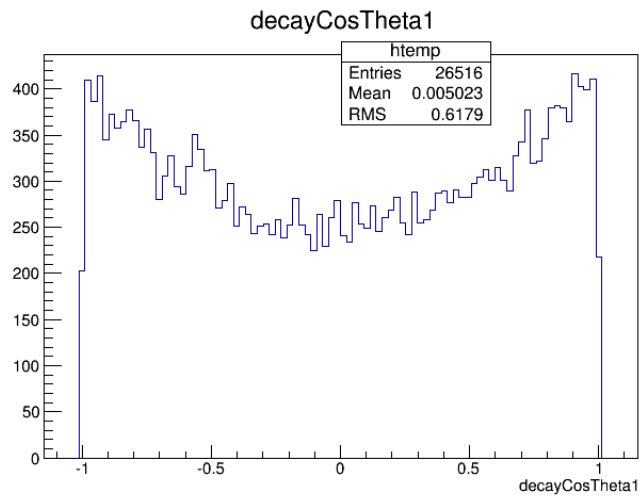

Figure 1: Plot for $\cos \theta_1$ from Kirill's fully simulated data

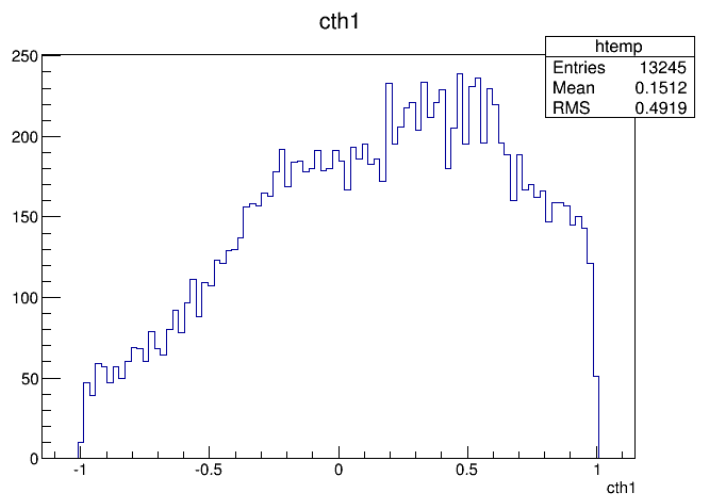

Figure 2: Plot for $\cos \theta_1$ from truth level data after cuts

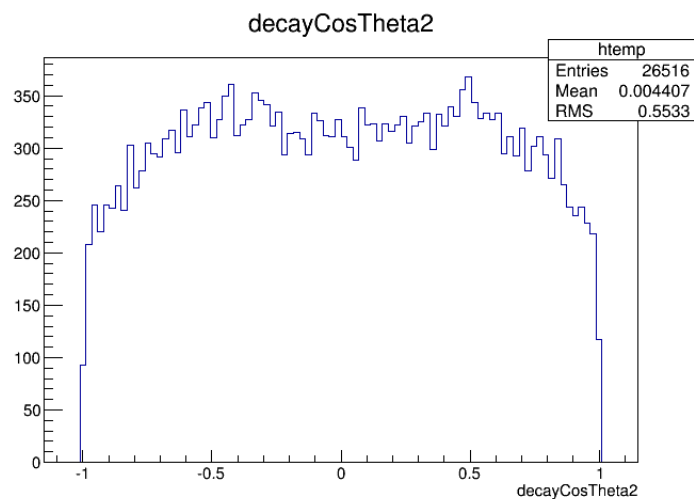

Figure 3: Plot for $\cos \theta_2$ from Kirill's fully simulated data

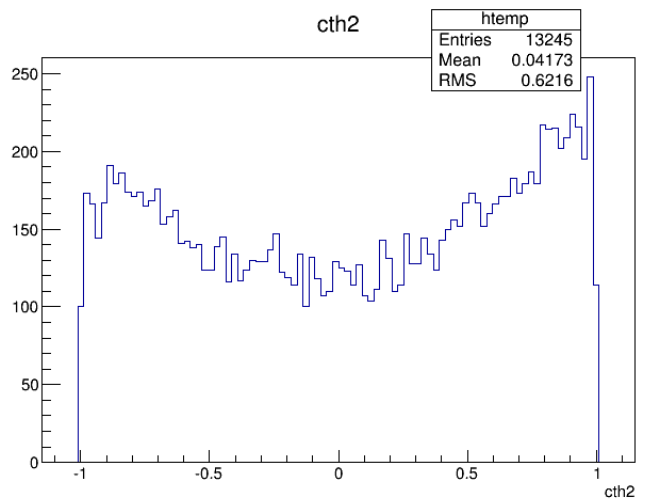

Figure 4: Plot for $\cos \theta_2$ from truth level data after cuts

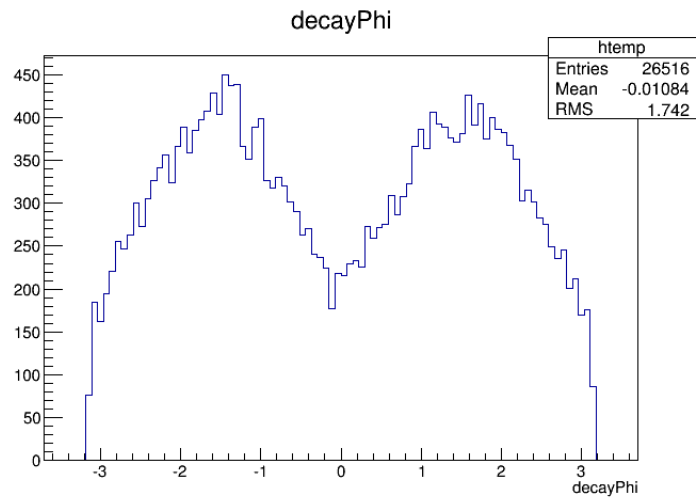

Figure 5: Plot for Φ from Kirill's fully sim data

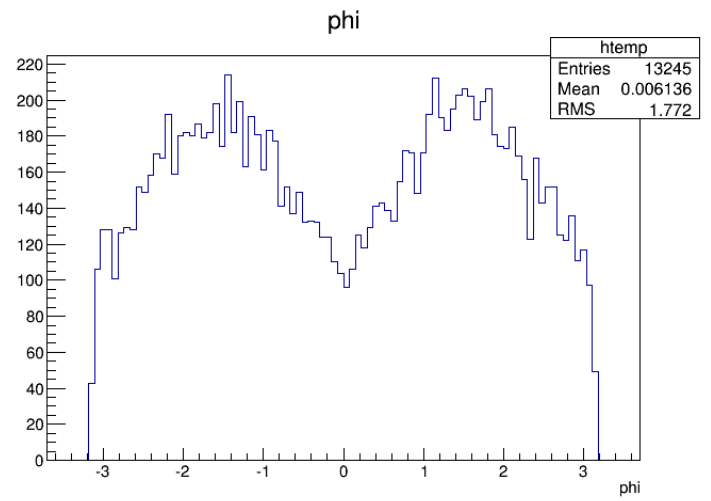

Figure 6: Plot for Φ from truth level data after cuts
